

List of Publication

1. Bemerkungen zum Oswatisch- Model, Conference Report, Arbeitstagung Ueber Innen – und Abgangsbullistik, Bingen, 1971.
2. Ueberschallsroemungen thermisch relaxierender Gase um Profilvorderkanten und Spitzen ZAMM-Sonderjeft, Vol.54, 1974.
3. Einschwing Vorgaenge in elastischer Fuehrungen unter bewegten Lasten, Dissertation Work, T.H. Aachen, 1976.
4. Variationsrechnung zur Reduktion eines Anfangs –randwertproblem einer Biegeschwingung auf ein aequivalantes Anfangwert problem, Professor Carl Heinz zum 60 Geburtstag, Fest Schrift, 1977.
5. Zweidimensionale instaionaere Gastroemungen mit lokaler Waermezufuehr, (I), Sonderforschungsbereich 83 fuer stroemungsmechanik und thermodynamik, Aachen, Report, 1977.
6. Zweidimensionale instationaere Gastroemungen mit lokaler Waermezufuehr, (II), Sonderforschungsbereich 83 fuer stroemungsmechanik und thermodynamik, Aachen, Report, 1978.
7. Sonderforschungsbereich 83, (III), Report, 1979.
8. Sonderforschungsbereich 83, (III), Report, 1980.
9. A second-order Method to Compute the Surface of separation in a Multilayer Flow, FMFP Proceedings, RIT Jsr., 1981.
10. An Alternative Design Procedure for Fluid Couplings, FMFP Proceedings, Roorkee, 1985.
11. Optimum Geometry for Annular Diffusers with Converging Cant Angles, FMFP, Roorkee 1985.
12. The Study of Design Aspects of Spray Nozzles for controlling Droplet Size, FMFP Srinagar 1987.
13. A Study of Transients in the Pump- Motor Combination, FMFP, REC, Warangal, 1990.
14. Hydraulic Resistance to Control Rod Drop in a PHWR, FMFP, REC, Warangal, 1990.
15. Some Formulation of Local Non-Reflecting Boundary Conditions, FMFP Palghat, 1993.
16. Air Snubbing the Shut-off Rod of a PHWR during Scram, FMFP, Palghat, 1993
17. Dynamics of Shut-off Road Drop in a PHWR, Nuclear Engineering and Design, Vol.147, 1994.
18. Dynamics Modeling and Simulation of Hydraulic Control System, FMFP, Hyderabad, 1994.
19. Non-Reflection Boundary Conditions Applied to Water Wave Problems, FMFP, Hyderabad, 1994.
20. An Experimental Study of Discharge Coefficient if Pipe Performations, Experiments in Fluids, Vol.19, 1995.
21. Non-Reflecting Boundary Conditions and their use in Estimating the Effects of Coolant Channel Failure in a PHWR, Nuclear Engineering and Design, Vol.188, 1999.
