

PUBLICATIONS OF PARESH DATE

- [J1.] Z. Sadik, P. Date and G. Mitra, "News augmented GARCH(1,1) model for volatility prediction" accepted for publication at the IMA Journal of Management Mathematics (impact factor 1.488), February 2018.
- [J2.] A.K. Singh, P. Date and S. Bhaumik, "A modified Bayesian filter for randomly delayed measurements", IEEE Transactions on Automatic Control (4.270), vol. 62, pages 419-424, 2017.
- [J3.] N. Grishina, C. Lucas and P. Date, "Prospect theory based portfolio optimization: an empirical study and analysis using intelligent algorithms" Quantitative Finance (0.960), vol. 17, pages 353-367, 2017.
- [J4.] Abhinoy Kumar Singh, Paresh Date and Shovan Bhaumik, "A new algorithm for continuous-discrete filtering with randomly delayed measurements", IET Control Theory and Applications (2.536), vol. 10, pages 2298-2305, 2016.
- [J5.] Abhinoy Kumar Singh, Shovan Bhaumik and Paresh Date, "Quadrature filters for one-step randomly delayed measurements", Applied Mathematical Modelling (2.350), vol. 40, pages 8296-8308, 2016.
- [J6.] Paresh Date and Roberto Bustreo, "Value-at-Risk for fixed-income portfolios: a Kalman filtering approach", IMA Journal of Management Mathematics (1.488), vol. 27, pages 557-573, 2016.
- [J7.] Paresh Date and Roberto Bustreo, "Measuring the risk of a nonlinear portfolio with fat tailed risk factors through probability conserving transformation", IMA Journal of Management Mathematics (1.488), vol. 27, pages 157-180, 2016.
- [J8.] Suren Islyayev and Paresh Date, "Electricity futures price models: calibration and forecasting", European Journal of Operational Research (3.297), vol. 247, pages 144-154, 2015.
- [J9.] Paresh Date and Suren Islyayev, "A fast calibrating volatility model for option pricing", European Journal of Operational Research (3.297), vol. 243, pages 599-606, 2015.
- [J10.] K. Ponomareva, D. Roman and P. Date, "An algorithm for moment-matching scenario generation with application to financial portfolio optimization", European Journal of Operational Research (3.297), vol. 240, pages 678-687, 2015.
- [J11.] K. Ponomareva and P. Date, "An exact minimum variance filter for a class of discrete time systems with random parameter perturbations", Applied Mathematical Modelling (2.350), vol. 38, pages 2422-2434, 2014.
- [J12.] P. Date and B. Gashi, "Controllability and controller-observer design for a class of linear time varying systems", Journal of Mathematical Modelling and Algorithms in Operations Research, vol. 13, pages 103-112, 2014.
- [J13.] P. Date and B. Gashi, "Generalised risk sensitive control with full and partial state observation", Journal of Mathematical Modelling and Algorithms in Operations Research, vol. 13, pages 87-101, 2014.
- [J14.] P. Date, R. Mamon and A. Tenyakov, "Filtering and forecasting commodity futures prices under an HMM framework", Energy Economics (2.580), vol. 40, pages 1001-1013, 2013.
- [J15.] S. Sidorov, P. Date and V. Balash, "Using news analytics data in GARCH models", Applied Econometrics, vol. 29, pages 82-96, 2013 (in Russian).
- [J16.] B. Gashi and P. Date, "Risk sensitive control for a class of nonlinear systems with multiplicative noise", Systems and Control Letters (2.550), vol. 62, pages 988-999, 2013.

- [J17.] K. Ponomareva and P. Date, "Higher order sigma point filter: a new heuristic for nonlinear time series filtering", *Applied Mathematical Modelling* (2.350), vol. 221, pages 662-671, 2013.
- [J18.] S. Mitra, P. Date, R. Mamon and I-Chieh Wang, "Pricing and risk measurement of interest rate swaps", *European Journal of Operational Research* (3.297), vol. 228, pages 102-111, 2013.
- [J19.] B. Gashi and P. Date, "Two methods for optimal investment with trading strategies of finite variation", *IMA Journal of Management Mathematics* (1.488), vol. 23, pages 171-194, 2012.
- [J20.] P. Date, A. Canepa and M. Abdel-jawad, "A mixed integer linear programming model for optimal sovereign debt issuance", *European Journal of Operational Research* (3.297), vol. 214, pages 749-758, 2011.
- [J21.] P. Date and K. Ponomareva, "Linear and nonlinear filtering in mathematical finance: a review", *IMA Journal of Management Mathematics* (1.488), vol. 22, pages 195-211, 2011.
- [J22.] P. Li, J. Lam, Z. Wang and P. Date, "Positivity preserving H-infinity model reduction for positive systems", *Automatica* (5.451), vol. 47, pages 1504-1511, 2011.
- [J23.] E. Pepona, S. Paoletti, A. Garulli, and P. Date, "Identification of piecewise affine LFR models of interconnected systems", *IEEE Transactions on Control Systems Technology* (2.521), vol. 19, pages 148-155, 2011.
- [J24.] S. Mitra and P. Date, "Regime switching volatility calibration by the Baum-Welch method", *Journal of Computational and Applied Mathematics* (1.357), vol. 234, pp. 3243-3260, 2010.
