

## RESEARCH PUBLICATIONS

### *I. Papers Published in Journals & Proceedings*

1. P. C. Kapur and S. P. Mehrotra: Phenomenological model for flotation kinetics, *Trans. Inst. Mining and Metallurgy (London)*, Sec. C, Vol. 82, 1973, 229-235.
2. P. C. Kapur and S. P. Mehrotra: Estimation of flotation rate distribution by numerical inversion of Laplace Transform, *Chem. Engg. Sci.*, Vol. 29, 1974, 411-416.
3. S. P. Mehrotra and P. C. Kapur: The effects of aeration rate, particle size and pulp density on the flotation rate distribution, *Powder Technology*, Vol. 9, 1974, 213-220.
4. S.P. Mehrotra and P.C. Kapur: Optimal-suboptimal synthesis and design of flotation circuits, *Separation Science*, Vol. 19, 1974, 167-184.
5. S. P. Mehrotra and P. C. Kapur: The effect of particle size and feed rate on flotation rate distribution in a continuous cell, *Int. J. Mineral Processing*, Vol. 2, 1975, 15-28.
6. S. P. Mehrotra: Role of digital computers in process metallurgy, *Metallica*, 1976, 33-38.
7. S. P. Mehrotra and P. Y. Khedkar: Production of metal powders by atomization and their characterization, *Trans. Indian Inst. of Metals*, Vol. 33, 1980, 361-367.
8. S. P. Mehrotra and V. Seshadri: Reduction of molybdenum trioxide with hydrogen, *Metal ABM*, Vol. 36, 1980, 507-15.
9. S. P. Mehrotra and V. Seshadri: Kinetics of reduction of molybdenum dioxide with hydrogen, *Metal ABM*, Vol. 36, 1980, 635-46.
10. K. P. Rao and S. P. Mehrotra: Effect of process variables on atomization of metals and alloys, *Modern Developments in Powder Metallurgy (Proceedings of International Powder metallurgy conference held at Washington, D.C., U.S.A., June, 1980)*, Vol. 12, 1981, 113-130.
11. S. P. Mehrotra: Mathematical modelling of gas atomization process for metal powder production, Part 1, *Powder Metallurgy International*, Vol. 13, 1981, 80-85.
12. S. P. Mehrotra: Mathematical modelling of gas atomization process for metal powder production, Part 2, *Powder Metallurgy International*, Vol. 13, 1981, 132-136.
13. S. P. Mehrotra: A numerical method for evaluating site energy distribution for adsorption of gases on solids, *Colloids and Surfaces*, Vol. 3, 1981, 267-78.
14. A. C. D. Chaklader, W. W. Gill and S. P. Mehrotra: Predictive model for interfacial phenomena between molten metals and sapphire in varying oxygen partial pressures, *Materials Sci. Research*, Vol. 14, 1981, 421-32.
15. S. P. Mehrotra and V. Manuja: Computer control in process technology, *Proceedings of the National Workshop on Use of Computers in Smelting Industry held at Hindustan Zinc Ltd., Udaipur*, 1982, 1-13.
16. R. K. Malik and S.P. Mehrotra: Mathematical modelling and simulation of smelting operations - typical examples from copper and lead smelting, *ibid*, 61-74.
17. S. P. Mehrotra: Computer applications in smelting industry - typical examples from copper, zinc and aluminium smelting, *ibid*, 75-89.
18. S. P. Mehrotra: Instrumentation in smelting operation, *ibid*, 90-110.

19. S. P. Mehrotra and A. K. Saxena: Effect of process variables on the residence time distribution of solids in a continuously operated flotation cell, *International J. Mineral Processing*, Vol. 10, 1983, 255-77.
20. S. P. Mehrotra and V. K. Sinha: Catalytic effect of iron on the carbon- carbon dioxide reaction kinetics, *Trans. Iron Steel Inst. Japan*, Vol. 23, 1983, 723-31.
21. D. Roy, S. P. Mehrotra and P. C. Kapur: Lightweight building blocks from fly ash pellets, *Resources and Conservation*, Vol. 11, 1984, 64-75.
22. S. P. Mehrotra and A. C. D. Chaklader: Interfacial phenomena between molten metal and sapphire substrates, *Metallurgical Trans. B*, Vol. 16B, 1985, 567-575.
23. N. Ranjan and S. P. Mehrotra: Mathematical modelling of conventional copper converter, *Proceedings of the International Conference on 'Progress in Metallurgical Research: Fundamental and Applied Aspects'*, held at IIT Kanpur, India (Feb. 11-15, 1985), Tata McGraw Hill, New Delhi, 1986, 269-276.
24. G. G. Krishnamurthy, A. Ghosh and S. P. Mehrotra: Effect of plume geometry of recirculation flow rates in a gas injected vessel, in the *Proceedings of the International Conference on 'Progress in Metallurgical Research: Fundamental and Applied Aspects'*, held at IIT Kanpur, India (Feb. 11-15, 1985), Tata McGraw Hill, New Delhi, 1986, 307-316.
25. G. G. Krishnamurthy, S. P. Mehrotra and A. Ghosh: Mixing in a gas injected vessel: some basic concepts and experimental measurements, *Proceedings of the Sixth Process Technology Conference, Fifth International Iron & Steel Congress*, Washington, D.C., 1986, 401-407.
26. S. P. Mehrotra: Analysis of kinetics of coal gasification using the concept of distributed rate constant, *Coal Science and Technology II: the Proceedings of 1987 International conference on Coal Science*, Elsevier, The Netherlands, 1987, 501-506.
27. S. P. Mehrotra: Design of optimal flotation circuits, *Proceedings of Indo- US Seminar on Special Topics in Mineral Processing*, December 30, 1987 - January 1, 1988, Publ. Tata Research Development and Design Centre, Pune, 1988.
28. P. C. Kapur and S. P. Mehrotra: Modeling of flotation kinetics and design of flotation circuits, *Proceedings of the International Conference on Challenges in Mineral Processing held at Berkeley* (December 7 - 10, 1988), Published by (SME/AIME), December 1988, 300-322.
29. G. G. Krishnamurthy, S. P. Mehrotra and A. Ghosh: Experimental investigation of mixing phenomena in a gas stirred liquid bath, *Metallurgical Trans. B*, Vol. 19B, 1988, 839-850.
30. G. G. Kirshnamurthy, A. Ghosh and S. P. Mehrotra: Characterization of two phase plume in a gas stirred liquid bath - a water model study, *Metallurgical Trans. B*, Vol 19B, 1988, 885-892.
31. S. P. Mehrotra: Design of optimal flotation circuits - a review, *Mineral and Metallurgical Processing Journal (SME/AIME)* Vol. 5, 1988, 142-153.
32. G. G. Krishnamurthy, A. Ghosh and S. P. Mehrotra: Mathematical modelling of mixing phenomena in gas stirred liquid bath, *Metallurgical Trans. B*, Vol 20B, 1989, 53-59.
33. S. P. Mehrotra: Role of Mathematical modelling in metallurgy, *Bulletin of Materials Science*, Vol. 12, 1989, 353-368.
34. S. P. Mehrotra and A. C. D. Chaklader: A preliminary kinetic analysis for first order gas-solid reactions with distributed rate constants using Laplace transform, *ISIJ International*, Vol. 29, No. 2, 1989, 125-134.
35. Ashok Dey, P. C. Kapur and S.P. Mehrotra: A search strategy for optimization of flotation circuits, *International J. of Mineral Processing*, Vol. 26, 1989, 73-93.

36. S. P. Mehrotra: Analysis of kinetics of oxidation/reduction of metal sulfides using the concept of distributed reaction rate constant, Proceedings of International Conference on Advances in Chemical Engineering, held at IIT Kanpur, January 4-6, 1989, Publ. Tata McGraw Hill, 1989, 224-232.
37. S. P. Mehrotra and N. P. H. Padmanabhan: Flotation kinetics - a review, Trans. Indian Inst. Metals, Vol. 43, 1990, 9-21.
38. S. P. Mehrotra and N. P. H. Padmanabhan: Analysis of flotation kinetics of Malankhand copper ore in terms of distributed flotation rate constant, Trans. Inst. Mining and Metallurgy (London) Section C, 1990, 32-42.
39. S. P. Mehrotra and J. K. Brimacombe: Coal-char carbon dioxide gasification in a rotary reactor, Ironmaking and Steelmaking, Vol.17, 1990, 93-104
40. S. P. Mehrotra and B. V. Kumar: Production of sponge iron in a fluidized bed reactor, Part I: Design of a high temperature fluidized bed reactor, Trans. Indian Inst. Metals, Vol. 43, 1990, 159-167.
41. S. P. Mehrotra and R. K. Mallik: Mathematical modelling of single roll process of continuous casting of steel strips/thin slabs based on fluid flow solidification considerations, Proc. of International Workshop on Metallurgical Fluid Flows, held in Lulea, June 1990, 19 pages.
42. M. K. Anjan Kumar and S. P. Mehrotra: A mathematical model of single roll strip caster based on macroscopic enthalpy balances, Steel Research, Vol. 62, 1991, 164-170.
43. S. P. Mehrotra and Binod Kumar: Reduction of iron ore in a fluidised bed reactor Part II: Reduction of iron ore fines with charcoal and methane in a fluidised bed reactor, Trans. Indian Inst. Metals, Vol. 44, 1991, 101-110.
44. M. K. Anjan Kumar and S. P. Mehrotra: Effect of process parameters on the performance of a single roll continuous strip caster, Proceedings of 1st European Conference on Continuous Casting of Steel, held at Florence, Italy, Sept. 23-25, 1991, Publ. Associazione Italiana Di Metallurgia, 1991, 2.367-2.376.
45. P. C. Kapur, A. Dey and S.P. Mehrotra: Identification of feed and simulation of industrial flotation circuits, Int. J. Min. Processing, Vol. 31, 1991, 11-35.
46. G.G. Krishna Murthy, A. Ghosh and S.P. Mehrotra: Theoretical estimation of mixing parameters in a gas stirred liquid bath, Trans. Indian Inst. Metals, Vol. 44, 1991, 31-37.
47. R. Singh and S. P. Mehrotra: Impact of mill tailings and effluents on environment, in the Proc. of National Seminar on Pollution Through Metallurgical Operations, held at Srinagar, June, 1987, Ed. A. R. Chesti, Publ. Rajkamal Electric Press, Delhi, 1991.
48. M. K. Anjan Kumar and S. P. Mehrotra: A mathematical model of single roll strip caster based on microscopic heat balance, Ironmaking and Steelmaking, Vol. 19, 1992, 55-63.
49. S. P. Mehrotra and R. Tandon: A mathematical model of single roll strip caster based on fluid flow considerations, Steel Research, Vol. 63, 1992, 205-211.
50. S. P. Mehrotra: Continuous casting of this slabs/strips of steel, Indian Steel Annual, 1991, 97-102.
51. G. G. Krishna Murthy and S. P. Mehrotra: Mixing in liquid baths by gas injection, Ironmaking and Steelmaking, Vol. 19, 1992, 377-389.
52. S. P. Mehrotra and R. K. Mallik: A mathematical model of single roll continuous strip caster based on heat transfer and fluid flow considerations, ISIJ International, Vol. 33, 1993, 595-604.

53. M.R.R.I. Shamsi and S. P. Mehrotra: A two dimensional heat and fluid flow model of single roll continuous sheet caster, Metallurgical Transaction B, Vol. 24B, 1993, 521-534.
54. S. P. Mehrotra and Y. C. Nand: Heat balance model to predict salamander penetration and temperature profiles in the sub-hearth of an iron blast furnace, ISIJ International, Vol. 33, 1993, 839-846.
55. S. P. Mehrotra: Mathematical modeling - A tool for developing existing and new technologies in iron and steel, Trans. Indian Inst. Met. Vol. 46, 1993, 253-265.
56. S. P. Mehrotra and V. Srinivasan : Extraction of nickel from Indian laterite ore by segregation roasting process, Trans. Inst. Mining and Metall. Sec. C, Vol. 103, 1994, C97-104.
57. S. P. Mehrotra and K. R. Udyakumar : Thermodynamic analysis of segregation roasting process for oxidized copper and nickel ores, Trans. Indian Inst. Metals, Vol. 47, 1994, 111-120.
58. S. P. Mehrotra: Optimal design and synthesis of flotation circuits, in Mineral Resources - Characterization and Beneficiation, Publ. Wiley Eastern, New Delhi, 1995, 165-183.
59. S. P. Mehrotra and Ratnakar Singh : Role of forth processes in flotation, Metals, Materials and Processes, Vol. 6, 1995, 195-216.
60. S. P. Mehrotra, M.R.R.I. Shamsi and P. N. Bid : Casting of aluminium sheets on a laboratory scale single roll continuous sheet caster, J. of Metals, Vol. 47, 1995, 18-22.
61. S. P. Mehrotra and M.R.R.I. Shamsi : Mathematical modeling of continuous strip/sheet casting on a single roll caster, Proceedings of National Conference on Transport Phenomena in Metallurgical Processes, eds. S. Prakash and P. Ramachandra Rao, NML Jamshedpur, 1996, 125-137.
62. M.R.R.I. Shamsi and S. P. Mehrotra : Validation and refining of the two dimensional heat and fluid flow model for a single roll sheet caster and estimation of heat transfer coefficients at caster drum-sheet interface, Ironmaking & Steelmaking, Vol.24, 1997, 167-173.
63. S. P. Mehrotra, A. Chakravorty and P. Singh: Determination of relevant heat transfer coefficients for the single roll continuous sheet caster using simulated experiments, Steel Research, Vol. 68, 1997, 201-208.
64. S. P. Mehrotra and B.K. Mishra: Mathematical modeling of particle stratification in jigs, Proceedings of the National Conference on Processing of Fines, NML, Jamshedpur, 1997, 202-217.
65. Anand Katti, B.K. Mishra and S.P. Mehrotra : Simulation of Industrial gravity separation processing using a general purpose simulator, Proceedings of the National Conference on Processing of Fines, NML Jamshedpur, 1997, 229-239.
66. B. K. Mishra and S.P. Mehrotra: Modelling of particulate stratification in jigs by the Discrete Element Analysis, Minerals Engineering, Vol.11, 1998, 511-522.
67. M.R.R.I. Shamsi and S.P. Mehrotra: Full rotation model of the single roll continuous sheet casting process, Ironmaking & Steelmaking, Vol.25, 1998, 150-158.
68. G. G. Roy, R. Shekhar and S. P. Mehrotra: Particle suspension in (air-agitated) Pachuca tanks, Metallurgical Transactions B, Vol. 29B, 1998, 339-349.
69. T. Chandrashekar, R. Shekhar and S. P. Mehrotra: Solid-liquid mass transfer in air-agitated Pachuca tanks, Inst. Min. Metall. (London) Sec. C, 1998, Vol 107, 151-156.
70. S. P. Mehrotra: Mathematical modeling and simulation of industrial floating circuits, Metals Materials and Processes, Vol. 10, 1998, 67-84.

71. S. P. Mehrotra: Production of metal sheets using a single roll continuous sheet caster, *Metals Materials and Processes*, Vol. 10, 1998, 351-368.
72. R. Srinivasan, B.K. Mishra and S.P. Mehrotra : Simulation of particle stratification in jigs, *Coal Preparation*, Vol. 20, 1999, 55-70.
73. B. K. Mishra, Anand Katti and S.P. Mehrotra : On-line size monitoring by a Nucleonic Density Gauge, *Mineral and Metallurgical Processing Journal*, Vol. 16, 1999, 37-40.
74. S. P. Mehrotra: Process control in iron and steel industry, in *Iron and Steelmaking: Principle and Practice*, Ed. N.B. Ballal, Allied Publishers, New Delhi, 1999.
75. S. P. Mehrotra, G.S. Rao and S.P. Gupta : Evaluation of properties of aluminium strips produced using a laboratory scale single roll continuous strip caster, *Trans IIM*, Vol. 52, 1999, 313-325.
76. P. S. Siva Raju and S.P. Mehrotra: Mathematical modeling of centrifugal casting of metal-matrix composites, *Materials Trans*, Japanese Institute of Metals, Vol. 41, 2000, 1626-1635.
77. S. P. Mehrotra and R. Shekhar: Studies on particle suspension in (air-agitated) Pachuca tanks, *Proc. of Processing of Fines*, (PROF-2000), held at NML, Jamshedpur, Nov. 2000, 345-361.
78. S. P. Mehrotra and R. Shekhar: Particle suspension in air agitated tanks: Investigation of hysteresis and novel split air injection technique, *Metallurgical Trans. B*, Vol. 32B, 2001. 223-231.
79. B. K. Mishra and S.P. Mehrotra: A jig model based on the discrete element method and its experimental validation, *International J. Mineral Processing*, Vol. 63/4, 2001, 177-189.
80. S. P. Mehrotra: Challenges and opportunities in mineral processing in India in new millennium, *IIM Metal News*, Vol. 4, 2001, 15-18; also published in the *Proc. of Int. Seminar on Mineral Processing Technologies (MPT-2001)*, Eds. N.P.H. Padmanabhan, T. Sreenivas and K. Srinivas, Allied Publishers Ltd. New Delhi, 2001, 1-4.
81. S. P. Mehrotra and Manish Pandey: Coal-char combustion in a fluidized bed reactor, *Trans Indian Institute of Metals*, Vol.54, 2001, 255-266
82. S. P. Mehrotra: Current studies and future trends in Mineral Processing education in India – Some concerns, *IIM Metal News*, Vol.6, No.2, April 2003, 17-19
83. M.R.R.I. Shamsi, T. Sundararajan, S.P. Mehrotra and R.P.Goel: Development of a two-dimensional model to simulate the gas flow and pressure variation in a blast furnace, in the *Proc. of Asia Steel International Conference-2003*, held at Jamshedpur, April 2003, Eds. T.Mukherjee and A.S.Dhillon, Publ. Tata Steel, Jamshedpur, Vol.1, 2003, paper 1.f.1
84. S. Kumar, K.M. Godiwalla and S.P. Mehrotra: Modeling of heat treatment and refractory wear in the blast furnace hearth using finite element method, in the *Proc. of Asia Steel International Conference-2003*, held at Jamshedpur, April 2003, Eds. T.Mukherjee and A.S.Dhillon, Publ. Tata Steel, Jamshedpur, Vol.1, 2003, paper 1.f.4
85. S. P. Mehrotra and S.Prakash: Market leadership through knowledge partnership in managing knowledge markets in a global economy – The Indian Context, *Proceedings of the R&D Management Conference*, 2003, CSIR, New Delhi, Dec. 6-7, 2003, pp 59-66, Eds. O.P.Agarwal and Sudeep Kumar
86. A. Bandopadhyay, M.C. Goswami and S.P. Mehrotra: Application of cleaner technology and process reengineering in reducing environmental pollution from Indian steel sector – A critical assessment, *Proceedings of 2004 Symposium on Recycling, Waste Treatment and Cleaner Technology*, Madrid, Spain, September 26-29, 2004

87. S. Prakash and S.P. Mehrotra: IPR in Market Savvy Technology, J. of the Indian Law Institute, Vol. 6, 2004, 226-235
88. S. P. Mehrotra and M.R.R.I. Shamsi: Near net shape casting of thin slab/strips: Current status and future trends, Metals, Materials and Processes, 2004, April-September, Vol. 16, No. 2-3.
89. C. Sasikumar, D.S. Rao, S. Srikanth, B. Ravikumar, N.K. Mukhopadhyay and S.P. Mehrotra: Effect of mechanical activation on the kinetics of sulfuric acid leaching of beach sand ilmenite from Orissa, India, Hydrometallurgy 75, 2004, 189-204
90. S. P. Mehrotra: Mathematical modelling – a wonder tool if judiciously used, CSIR Diamond Jubilee Lecture Series, Edited by R P Goel and N.G.Goswami, Publ. NML, Jamshedpur, 2004, 67, 103.
91. S. P. Mehrotra and A. Bandopadhyay: Environmental issues in Indian Steel Industry, JPC Bulletin, August 2004, 11-21
92. Rakesh Kumar, T.C. Alex, Z.H. Khan, S.P. Mahapatra and S.P. Mehrotra: Mechanical activation of bauxite-potential and prospects in the Bayer process, Light Metals, Edited by Halvor Kvande TMS (The Minerals, Metals & Materials Society), 2005, 77-79
93. Chandan Guria, Mohan Verma, Santosh K. Gupta and S.P. Mehrotra: Multi-objective optimal synthesis and design of froth flotation circuits for mineral processing, using the jumping gene adaptation of genetic algorithm, Ind. Eng. Chem. Res., Vol. 44, 2005, 2621-2633.
94. Chandan Guria, Mohan Verma, S.P. Mehrotra and S.K. Gupta: Simultaneous optimisation of the performance of flotation circuits and their simplification using the jumping gene adaptation of genetic algorithm, Miner. Process. Vol.77, 2005, 165-185
95. S. Prakash, K. Mukherjee and S.P. Mehrotra: Cold model study of metal droplet descent fluids including a treatment of the non-Newtonian behaviour as exhibited by molten slag system, Iron and Steelmaking, Vol.32, 2005, 494-502
96. R. Kumar, S. Kumar, S. Budjena and S.P. Mehrotra: Hydration of mechanically activated granulated blast furnace slag, Metall. Trans.B, Vol. 36B, 2005, 873-883
97. S. K. Das, K.M. Godiwalla, S.P. Mehrotra, Amit Chatterjee, S.H. Krishnan and P.C. Choudhary: Mathematical modelling of volatile matter evolution during carbonisation in metallurgical coke ovens, International Journal of High Temperature Materials and Processes, Vol. 24, 2005, 301-314
98. Sanjay Kumar, Rakesh Kumar, T. C. Alex, A. Badopadhyay and S. P. Mehrotra: Effect of mechanically activated fly ash on the properties of geopolymer cement, Proc. World Congress Geopolymer 2005, Ed. Joseph Davidovits, 2005, 113-116
99. G. Bhaskar Raju, S. Prabhakar, S.P. Mehrotra and S.B. Vora: Circuit simplification by flotation columns – A pilot scale study, Emerging Trends in Mineral Processing and Extractive Metallurgy, edited by V.N. Mishra, S.C. Das and T. Subbaiah, Allied Publishers, New Delhi (2005), 10-21

## **II. Papers Presented in National/International Conferences**

1. S. P. Mehrotra and V. Seshadri: Kinetics of reduction of molybdenum oxides by hydrogen, 'Process Metallurgy Conference' held at IIT Kanpur, 1969.
2. S. P. Mehrotra and P. Y. Khedkar: Atomization of molten metals, 'Powder Metallurgy Conference' held at Calcutta in February, 1979.
3. K. P. Rao and S. P. Mehrotra: Effect of process variables on atomization of metals and alloys, 'Powder Metallurgy International 1980', an international conference held at Washington, D.C., U.S.A., in June 1980.
4. A.C.D. Chaklader, W. W. Gill and S. P. Mehrotra: Predictive model for interfacial phenomena between molten metals and sapphire in varying oxygen partial pressures, International

- conference on 'Surface and Interfaces in Ceramics and Ceramic Metal Systems' held at Berkeley, California, U.S.A., in July 1980.
5. S. P. Mehrotra: Gasification of carbon by carbon dioxide, 'Steel Seminar' held at the University of British Columbia, Vancouver, Canada, Sept. 1980.
  6. S. P. Mehrotra and V. K. Sinha: Catalytic effect of iron on the kinetics of C-CO<sub>2</sub> reaction, 110 Annual meeting of AIME held at Chicago, U.S.A., Feb. 1981.
  7. S. P. Mehrotra and V. Manuja: Computer control in process technology, Use of Computers in Smelting Industry - National Workshop held at Hindustan Zinc Ltd., Udaipur, June, 1982.
  8. R. K. Malik and S. P. Mehrotra: Mathematical modelling and simulation of smelting operations: typical examples from copper and lead smelting, Use of Computers in Smelting Industry -National Workshop held at Hindustan Zinc Ltd., Udaipur, June, 1982.
  9. S. P. Mehrotra: Computer Applications in smelting industry: typical examples from copper, zinc and aluminium smelting, Use of Computers in Smelting Industry - National Workshop held at Hindustan Zinc Ltd., Udaipur, June, 1982.
  10. S. P. Mehrotra: Instrumentation in smelting operations, Use of Computers in the Smelting Industry - National Workshop at Hindustan Zinc Ltd., Udaipur, June, 1982.
  11. N. Ranjan and S. P. Mehrotra: Mathematical Modelling of a conventional copper converter, 'Progress in Metallurgical Research: Fundamental and Applied Aspects', International Conference, held at IIT Kanpur, Feb. 11-15, 1985.
  12. G. G. Krishnamurthy, A. Ghosh and S. P. Mehrotra: Effect of plume geometry on recirculation flow rates in a gas injected vessel, 'Progress in Metallurgical Research: Fundamental and Applied Aspects', International Conference, IIT Kanpur, Feb. 11-15, 1985.
  13. S. P. Mehrotra: A new approach to analyse the kinetics of gas solid reactions: concept of distributed reaction rate constants, Annual Technical Meeting of IIM, held at Bombay, Nov. 16-17, 1986.
  14. S. P. Mehrotra: Analysis of kinetics of carbon gasification using the concept of distributed rate constant, 'International Conference on Coal Science', held at Maastricht, The Netherlands, Oct. 26-30, 1987.
  15. S. P. Mehrotra: Role of Mathematical modelling in metallurgy, International Conference on Recent Advances in Materials and Processes, I.T. B.H.U., Varanasi, Nov. 30 - Dec. 2, 1987.
  16. S. P. Mehrotra: Analysis of kinetics of oxidation/reduction of metal sulfides using the concept of distributed reaction rate constant, International Conference on Advances in Chemical Engineering held at IIT Kanpur, January 4-6, 1989.
  17. R.K. Mallik and S.P. Mehrotra: Mathematical modelling of single roll process of continuous casting of steel strips based on fluid flow and heat transfer considerations, paper presented at the International Workshop on 'Metallurgical Fluid Flows' held at Lulea, Sweden, June 27-29, 1990.

18. M. K. Anjan Kumar and S. P. Mehrotra: Effect of process parameters on the performance of a single roll continuous caster, presented in the 1st European Conference on Continuous Casting held at Florence, Italy, Sept. 23-25, 1991.
19. S. P. Mehrotra: Role of mathematical modeling and simulation in process analysis and design, paper presented in the National Seminar Workshop on System Design and Simulation held at Dayalbagh Engineering College, Agra, April 30 - May 2, 1992.
20. S.P. Mehrotra: Mathematical modeling of continuous strip/sheet casting on a single roll caster, CIM'98, Montreal, Canada, May 3-7, 1998.
21. S.P. Mehrotra and B.K. Mishra: Mathematical modeling of jig bed stratification, International Mineral Processing Congress, Cape Town, South Africa, Sept. 28-Oct.3, 2003
22. S. Prakash, K. Mukherjee and S.P. Mehrotra: RTD of Metalloids in the lower Region of the Blast Furnace, Proceedings of Indian Chemical Engineering Congress (Chemcon-2004), December 2004, Mumbai,
23. S.P.Mehrotra and Rakesh Kumar: Mechanical activation of solids: characterization and select applications in minerals and waste processing, XXIII International Mineral Processing Congress, Istanbul, Turkey, September 3-8, 2006
24. S.P. Mehrotra and Avimanyu Das: A comprehensive analysis of separation in floatex density separator, XXIV International Mineral Processing Congress, Beijing, China, September 24-28, 2008
