

# **CEPTians WIN DESIGN DO**

A model designed by Jaishil Shah, Parth Patel, Dhaval Patel and Pramit Shah, all students of Faculty of Technology of Cept University, was declared winner at the SEISMISM event at 'AMALTHEA', organised by IIT Gandhinagar on October 11 and 12. The task was to make an earthquake resistive model with defined criteria. Models were tested on a Shake Table and were evaluated on the basis of the time period for which they could sustain predefined dead load at varying frequency.
