

Touching History

BOOK LAUNCH Literature often undertakes the task of bringing back to light those who have faded from memory. In such an endeavour, bestselling author and grandson of Mahatma Gandhi, Rajmohan Gandhi, on Wednesday evening, launched his new book *Prince of Gujarat*. A biography of Darbar Gopaldas Desai, the book recounts the tale of the ruler who was also a noted Gandhian, an activist and is known as the first prince in the country to have given up his principality to become a freedom fighter. The launch was preceded by a conversation between Gandhi and author-journalist Aakar Patel that touched the life and times of Darbar Gopaldas Desai.
