Indian Institute of Technology Gandhinagar (IITGn) will host 4th academic advisory council and 5th leadership conclave on January 5 and 6 respectively.

It aims to identify the best strategies for academic excellence and leadership for IITGn.

In the fourth meeting the council will discuss four initiatives to boost research productivity, raising the level of post-graduate program, strategies for handling the move to the permanent campus and developing strategic relationships with foreign universities.

The fifth conclave plans to discuss three key issues including major fund-raising initiative by the institute, engaging IITGn with professional bodies and organisations, and creation of a research park at the institute's permanent campus.

The institute formulated a leadership conclave every year to guide the institute in its short, medium, and long-term strategic issues.

The conclave brings together some of the most eminent thinkers about education from India and around the world, and

The institute will also host the leadership council on January 6
