

Lecture on IIT-Gn in US

IIT-Gandhinagar director Prof Sudhir Jain will visit the US next week to develop industry partnerships and attend a lecture on IIT-Gn, organized by the Indian Embassy in Washington DC. Beside this, United States Agency for International Development (USAID) is helping IIT-Gn organize meetings with universities and industry leadership in Washington DC, Boston, Raleigh, and New York. In February, IT-Gn and USAID started consultations on developing high-level partnerships with American universities and industry. The discussions were framed under the joint agreement signed ahead of US President Barack Obama's visit to India on January 26.
