Festivals continue to provide the opportunity to hone the talent of students in city-based colleges. Indus University kick started its week-long cultural festival 'Instincts'16' on Monday. It is the first time that the university is organising an inter-college competition.

Apart from cultural events, the fest also includes technology and sports activities. The first day saw events like Literati, Aakar, Techniite and Collympics.

The Indus Robotics Club had incorporated a new event named 'Real Steel' as a part of Techniite this year. The

event saw participation of 10 teams who launched their robots for fight in the game. Besides, 20 teams participated in road runner, a robo race. The remote controlled robots had to travel through a track crossing mud stretch, bridge and bump in three minutes.

## **Blithchron 16 at IITGn**

The two-day cultural festival of IIT Gandhinagar, Blithchron 16, which witnessed huge participation, ended recently. Organised since 2009, the event sees participation of students from National Institute of Design (NID), In-

dian Institute of Management Ahmedabad (IIMA), Pandit Dindayal Petroleum University (PDPU) and others.

The highlights were Euphony- solo singing competition, Antaragnee-street play competition; Jobless-a mock interview to hone students' interview facing skills and many more.

The winner of the solo singing competition will get a chance to perform live on 94.3 My FM. The winning team of the street-play competition will get a chance to perform at National Centre for Performing Arts (NCPA) in Mumbai.

Panache (a fashion show), The Butler Did It (a crime investigation game), Synchronize (group dance competition) were among other competitions. The fest concluded with students dancing on the beats of Kash Trivedi and DJ Miss Tara.
